

Division: _____

participants	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17
bye-outs	1	0	3	2	1	0	7	6	5	4	3	2	1	0	15

participants	18	19	20	21	22	23	24	25	26	27	28	29	30	31	32
bye-outs	14	13	12	11	10	9	8	7	6	5	4	3	2	1	0

DIRECTIONS

- Collect tickets and count the number of competitors. Check the chart to find appropriate number of bye outs. Select appropriate number of bye outs by randomly choosing that number of competition tickets. Keep these separate from the other tickets.
- Write remaining names on sheet under first round.
- Write bye out names on second round.
- Run division as normal.

EXAMPLE

Competitors: 12
 Bye-Outs: 4

Determine the 4 bye-outs by picking randomly. These will be added to the second tier as though they have already won the first round.

Combine bye-outs (in 2nd round) with 1st round winners to begin 2nd round.
